

I was a practicing witch for about 25 years. I had a spiritual conversion and began earnestly seeking God but I was struggling so much with the pull of witchcraft. I attended the Spiritual Warfare & Deliverance Prayer retreat given by Father Crotty and I must say that his information is very accurate and he definitely knows what he's talking about. While he was making points on Wicca I felt like I was fighting to stay in my seat and not fall on the floor writhing in agony, screaming my head off. However; once I was able to go to confession with Fr. Crotty later in the evening I was delivered of this and I have not had one bit of trouble in this area since that time. Thank you Fr. Crotty for following where God has directed you and for helping me to be free of the bondage of witchcraft. If anyone reading this wants to be free of the shackles of occult practices please, I urge you to listen to Father Crotty and allow him to pray deliverance over you. If you trust in the mercy of God you will never be disappointed.

God Bless you,
